

## PRESS RELEASE

### **Nation of Gondwana becomes Corona model project in the state of Brandenburg Long-standing open-air festival may take place with scientific accompaniment**

**Brandenburg, June 08, 2021:** After a one-year break from Corona, the festival Nation of Gondwana can take place again in 2021 under certain conditions. At the beginning of June, it was also announced that the festival is a model project of the state of Brandenburg: The implementation of all hygiene measures will be scientifically accompanied on site and evaluated afterwards. The knowledge gained from this should help to make future large-scale events safer and the incidence of infection more controllable.

The festival will take place over two consecutive weekends. The three-day open air events will begin July 16 and 23 in Grünefeld / municipality of Schönwalde-Glien. Admitted are about 5,000 guests plus crew each time.

Basis for a safe event is a comprehensive hygiene and test concept, which was approved at the beginning of the year by the responsible health authority. All visitors must present a valid negative PCR test, which is included in the admission price. In addition, a further antigen test - which is considered to be extremely sensitive - is carried out before entering the premises. And even in the open air, mouth and nose coverings are to be worn in front of gastronomic stands as well as toilets.

The organizers would like to thank the municipality of Schönwalde-Glien for its excellent cooperation and the trust placed in them. We would also like to thank the state of Brandenburg and in particular the MWAE and MSGIV.

The common goal: to make culture possible again in 2021 - and to do so as safely as possible!

The organizers ask to refrain from further requests form statements nor interviews, because the focus is now on the final planning and the safe implementation of this year's Nation of Gondwana.
